JOURNAL OF PATHOLOGY, VOLUME 130

INDEX OF SUBJECTS

PAGE

ACRODERMATITIS ENTEROPATHICA, ultrastructural changes in the small intestine of zinc deficient rats 37
ADJUVANT-DISEASE in rats, inflammatory response to lymph node cells from . 255
AGEING, structure of the human thyroid in relation to ageing and focal thyroiditis 99
ultrastructure of age-associated intimal fibrosis in pulmonary blood vessels . 247
ALCOHOL and malnutrition in the pathogenesis of experimental alcoholic cardiomyopathy 105
AMIANTHOID FIBRES in a chondrosarcoma 147
ANGIOSARCOMA, solid dendritic cell: reinterpretation of extra-skeletal sarcoma resembling Ewing's sarcoma . . 217
AORTA and coronary artery samples obtained post mortem from male patients dying in the age range 45–65 years: distribution of collagen types I, III and V (AB) 45
APOPTOSIS, ultrastructural changes in the small intestine of zinc deficient rats . 37
ARTERIES, PULMONARY, ultrastructure of age-associated intimal fibrosis . . 247
ATHEROSCLEROSIS of human aorta: distribution of collagen types I, III and V (AB) 45

BENTONITE injections in guinea pigs: ultrastructure of reaction 57
BENZANTHRACENE, view at the end of the first half-century of chemical carcinogenesis 117
BOOKS RECEIVED
Zoonoses and the origins and ecology of human disease, by Fiennes, T. W. (Academic Press) 265
Pathobiology Annual, Volume 8, by Ioachim, H. L. (ed) 265
The concepts of illness, disease and morbus, by Taylor, F. K. (Cambridge University Press) 266
Atlas of tumour pathology (second series fasicle 14), Tumours of the parathyroid glands, by Castleman, B. and Roth, S. I. (Published by the Armed Forces Institute of Pathology) . . . 267
Surgical pathology of the uterus, by Silverberg, S. G. (John Wiley & Sons Ltd.) 267
BORRELIA DUTTONI, terminal changes in mice experimentally infected with . 83

CARBON TETRACHLORIDE injury, possible role of macrophages in transient hepatic fibrogenesis 65
CARCINOGENESIS, CHEMICAL, stereological analysis of histological parameters in experimental premalignant hamster cheek pouch epithelium . . . 201
view at the end of the first half-century . 117
CARDIOMYOPATHY, experimental alcoholic: study of alcohol and malnutrition in the pathogenesis of 105
CARRAGEENAN, possible role of macrophages in transient hepatic fibrogenesis induced by acute carbon tetrachloride injury 65
CARTILAGE, ARTICULAR, production of split patterns on surfaces in rats . . . 15
CATECHOLAMINES, alcohol and malnutrition in the pathogenesis of experimental alcoholic cardiomyopathy . . . 105
CELL CULTURE, morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* 23
CELL DEPLETION in solid tissue . . . 173
CEREBELLUM, measurement of rate of disappearance of microneurons from the granular layer of the cerebellum of the rat during post mortem autolysis 173
CHEDIAK-HIGASHI SYNDROME, giant lysosomes, a cytoplasmic marker in osteoclasts of beige mice 237
CHOLECYSTITIS, fine structural analysis . 1
CHONDROCYTES, breakdown of collagen by 159
CHONDROSARCOMA, amianthoid fibres in a 147
COAGULATION, DISSEMINATED INTRAVASCULAR, terminal changes in mice experimentally infected with Borrelia duttoni 83
COLLAGEN, amianthoid fibres in a chondrosarcoma 147
breakdown of collagen by chondrocytes 159
distribution of collagen types I, III and V (AB) in normal and atherosclerotic human aorta 45

PAGE

CORTISONE, possible role of macrophages in transient hepatic fibrogenesis induced by acute carbon tetrachloride injury 65

ELECTRON MICROSCOPY, SCANNING, study of the epithelium of human palatine tonsils 91

ELECTRON MICROSCOPY, TRANSMISSION, age-associated intimal fibrosis in pulmonary blood vessels 247

alcohol and malnutrition in the pathogenesis of experimental alcoholic cardiomyopathy 105

amianthoid fibres in a chondrosarcoma . 147

cells of the mononuclear-phagocyte series (MPS) across the leprosy spectrum . 223

changes in the small intestine of zinc deficient rats 37

examination of epithelial cells from 40 gallbladders showing chronic cholecystitis and five with cholesterolosis . 1

exocytosis by macrophage polykarya . 75

haemorrhagic exudate and its possible relationship to neurogenic inflammation 193

morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* . . . 23

proliferative glomerulonephropathy in multiple myeloma 229

reaction of guinea pigs to bentonite injection in experimental granulomatous inflammation 57

solid dendritic cell angiosarcoma: reinterpretation of extraskeletal sarcoma resembling Ewing's sarcoma . . 217

terminal changes in mice experimentally infected with Borrelia duttoni . . 83

ENTEROCYTES, ultrastructural changes in the small intestine of zinc deficient rats 37

EPITHELIUM, scanning and transmission electron microscopy of human palatine tonsils 91

stereological analysis of histological parameters in experimental premalignant hamster cheek pouch . . 201

EXOCYTOSIS by macrophage polykarya: an ultrastructural study 75

EXUDATE, haemorrhagic: its possible relationship to neurogenic inflammation 193

FERRETS, smooth-muscle hyperplasia and neoplasia in ovaries 169

FOWL, morphological changes, surface receptors and phagocytic potential of mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* . . . 23

GALL BLADDER, fine structural analysis of cholecystitis 1

PAGE

GLOMERULONEPHRITIS, proliferative glomerulonephropathy in multiple myeloma 229

GLOMERULONEPHROPATHY, a case of multiple myeloma with intra- and extracapillary proliferative . . . 229

GRANULOMA, experimental granulomatous inflammation: ultrastructure of the reaction of guinea pigs to bentonite injection 57

inflammatory response to lymph node cells from adjuvant-diseased rats: relative contributions of donor and recipient cell populations . . . 255

ultrastructure of cells of the mononuclear-phagocyte series (MPS) across the leprosy spectrum 223

GUINEA PIGS, experimental granulomatous inflammation: ultrastructure of the reaction to bentonite injection . . 57

haemorrhagic exudate and its possible relationship to neurogenic inflammation 193

HAMSTER, stereological analysis of histological parameters in experimental premalignant cheek pouch epithelium . 201

HYPERPLASIA, morphological and immunocytochemical study of spontaneous tumours in the pituitary gland of old Wistar rats 179

smooth-muscle, and neoplasia in the ovaries of domestic ferrets . . . 169

IMMUNE COMPLEXES, morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* 23

IMMUNOCYTOCHEMISTRY, spontaneous tumours in the pituitary gland of old Wistar rats 179

IMMUNOFLUORESCENCE, comparison in germ-free mice of the pathogenesis of Sendai virus and mouse pneumonia virus infections 153

distribution of collagen types I, III and V (AB) in normal and atherosclerotic human aorta 45

proliferative glomerulonephropathy in multiple myeloma 229

IMMUNOGLOBULINS, defective phagocytic ability of epithelioid cells reversed by levamisole 33

INFECTION by Borrelia duttoni: terminal changes in mice 83

INFLAMMATION, haemorrhagic exudate and its possible relationship to neurogenic . 193

response to lymph node cells from adjuvant-diseased rats: relative contributions of donor and recipient cell populations 255

PAGE

ultrastructure of the reaction of guinea pigs to bentonite injection . . . 57
INTESTINE, small, ultrastructural changes in zinc deficient rats 37
INTIMAL FIBROSIS, ultrastructure of age-associated intimal fibrosis in pulmonary blood vessels 247

LEPROSY, ultrastructure of cells of the mononuclear-phagocyte series (MPS) . 223
LEVAMISOLE, possible role of macrophages in transient hepatic fibrogenesis induced by acute carbon tetrachloride injury 65
reversion of defective phagocytic ability of epithelioid cells 33
LYMPHOID TISSUE, inflammatory response to lymph node cells from adjuvant-diseased rats: relative contributions of donor and recipient cell populations . 255
scanning and transmission electron microscopy on the epithelium of human palatine tonsils 91
LYSOSOMES, a cytoplasmic marker in osteoclasts of beige mice . . . 237

MACROPHAGES, defective phagocytic ability of epithelioid cells reversed by levamisole 33
exocytosis by polykarya: an ultrastructural study 75
experimental granulomatous inflammation: the ultrastructure of the reaction of guinea pigs to bentonite injection . 57
morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* 23
possible role in transient hepatic fibrogenesis induced by acute carbon tetrachloride injury 65
ultrastructure of cells of the mononuclear-phagocyte series (MPS) across the leprosy spectrum 223
MALNUTRITION and alcohol in the pathogenesis of experimental alcoholic cardiomyopathy 105
MICE, comparison in germ-free mice of the pathogenesis of Sendai virus and mouse pneumonia virus infections . . . 153
defective phagocytic ability of epithelioid cells reversed by levamisole . . . 33
giant lysosomes, a cytoplasmic marker in osteoclasts 237
terminal changes in mice experimentally infected with Borrelia duttoni . . 83
MICRONEURONS, study of the rate of cell depletion in solid tissue 173
MICROVILLI, ultrastructural changes in the small intestine of zinc deficient rats . 37

PAGE

MORPHOMETRY stereological analysis of histological parameters in experimental premalignant hamster cheek pouch epithelium 201
structure of the human thyroid in relation to ageing and focal thyroiditis . . 99
MUSCLE hyperplasia and neoplasia in the ovaries of domestic ferrets . . . 169
MUSTELA PUTORIUS FURO, twenty cases of ovarian leiomyoma in a colony of ferrets 169
MYELOMA, multiple, with intra- and extracapillary proliferative glomerulonephropathy 229
MYOFIBROBLAST, ultrastructure of age-associated intimal fibrosis in pulmonary blood vessels 247

NEOPLASIA leiomyoma in ferrets . . . 169
NERVE STIMULATION, haemorrhagic exudate and its possible relationship to neurogenic inflammation 193
NITROSO COMPOUNDS, a view at the end of the first half-century of chemical carcinogenesis 117
NISTATIN, haemorrhagic exudate and its possible relationship to neurogenic inflammation 193

OESTROGENS, chemical carcinogenesis: a view at the end of the first half-century 117
spontaneous tumours in the pituitary gland of old Wistar rats: a morphological and immunocytochemical study 179
OSTEOCLASTS, giant lysosomes, a cytoplasmic marker in osteoclasts of beige mice 237
OVARIES, smooth-muscle hyperplasia and neoplasia in domestic ferrets . . 169

PHAGOCYTES, defective phagocytic ability of epithelioid cells reversed by levamisole 33
morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* . . . 23
PIGS, breakdown of collagen by chondrocytes 159
PITUITARY gland of old Wistar rats: morphological and immunocytochemical study of spontaneous tumours 179
PLATELETS, morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* . 23
PNEUMONIA, comparison in germ-free mice of the pathogenesis of Sendai virus and mouse pneumonia virus infections . 153

PAGE

POLYKARYONS, defective phagocytic ability of epithelioid cells reversed by levamisole 33
exocytosis by macrophage polykarya: ultrastructural study 75
PROLYL HYDROXYLASE, possible role of macrophages in transient hepatic fibrogenesis induced by acute carbon tetrachloride injury 65

RATS, alcohol and malnutrition in the pathogenesis of experimental alcoholic cardiomyopathy 105
inflammatory response to lymph node cells in adjuvant-disease: relative contributions of donor and recipient cell populations 255
production of split patterns on the articular cartilage surface . . . 15
spontaneous tumours in the pituitary gland: morphological and immunocytochemical study 179
study of the rate of cell depletion in solid tissue 173
ultrastructural changes in the small intestine of zinc deficient rats . . 37

SARCOMA, EXTRASKELETAL resembling Ewing's sarcoma, re-interpretation . 217

PAGE

THROMBOCYTES, morphological changes, surface receptors and phagocytic potential of fowl mononuclear phagocytes and thrombocytes *in vivo* and *in vitro* 23
THYROID, structure of the human thyroid in relation to ageing and focal thyroiditis 99
TONSIL, scanning and transmission electron microscopy on epithelium . . . 91
TUMOURS, ANIMAL, morphological and immunocytochemical study of spontaneous tumours in the pituitary gland of old Wistar rats . . . 179
smooth-muscle hyperplasia and neoplasia in the ovaries of domestic ferrets . . 169
TUMOURS, HUMAN, INDIVIDUAL, amianthoid fibres in a chondrosarcoma . . . 147
solid dendritic cell angiosarcoma: re-interpretation of extraskeletal sarcoma resembling Ewing's sarcoma . . 217

VIRUS, SENDAI and mouse pneumonia virus infections: comparison in germ-free mice of the pathogenesis of . . . 153

ZINC deficient rats: ultrastructural changes in the small intestine 37

INDEX OF AUTHORS
